

Healing Mind, Body and Spirit

Intimacy After Cancer Treatment

The cancer journey can affect both the functional and psychological aspects of sexual health, yet this issue often goes unaddressed. At this special Dignity Health Cancer Institute event, guest speaker Fran Fisher, RN, PhD, will discuss:

- How patients can once again enjoy intimacy after cancer treatment
- Reconnecting physically and the healing power of touch
- How to manage or help reverse symptoms of premature menopause

Attendees will also have the opportunity to engage vendors to learn more about everything from aromatherapy to laser treatment. We hope you'll join us.
